First Aid Policy Statement

The Trustees, Governors and staff of member schools accept their responsibility under the Health and Safety (First Aid) regulations 1981 and acknowledge the importance of providing First Aid for employees, children and visitors within the school.

We are committed to the HSE's procedure for reporting accidents and recognise our statutory duty to comply with the Reporting of injuries, diseases and dangerous occurrences regulations 2013.

1. Aims

The aims of our first aid policy are to:

- Ensure the health and safety of all staff, pupils and visitors
- Ensure that staff and governors are aware of their responsibilities with regards to health and safety
- Provide a framework for responding to an incident and recording and reporting the outcomes

2. Legislation and guidance

This policy is based on the [Statutory Framework for the Early Years Foundation Stage](#), advice from the Department for Education on [first aid in schools](#) and [health and safety in schools](#), and the following legislation:

- The Health and Safety (First Aid) regulations <http://www.hse.gov.uk/firstaid/legislation.htm> which state that employers must provide adequate and appropriate equipment and facilities to enable first aid to be administered to employees, and qualified first aid personnel
<http://www.hse.gov.uk/pubns/books/l21.htm> which require employers to make an assessment of the risks to the health and safety of their employees
- [The Management of Health and Safety at Work Regulations 1999](#), which require employers to carry out risk assessments, make arrangements to implement necessary measures, and arrange for appropriate information and training

- [The Reporting of Injuries, Diseases and Dangerous Occurrences Regulations \(RIDDOR\) 2013](#), which state that some accidents must be reported to the Health and Safety Executive (HSE), and set out the timeframe for this and how long records of such accidents must be kept
- [Social Security \(Claims and Payments\) Regulations 1979](#), which set out rules on the retention of accident records
- [The Education \(Independent School Standards\) Regulations 2014](#), which require that suitable space is provided to cater for the medical and therapy needs of pupils

This policy complies with our funding agreement and articles of association.

3. Roles and responsibilities

In line with statutory requirements for schools with Early Years Foundation Stage provision, at least one person who has a current paediatric first aid certificate will be on the premises at all times.

In the event of an accident resulting in injury:

- The closest member of staff present will assess the seriousness of the injury and seek the assistance of a qualified first aider, if appropriate, who will provide the required first aid treatment

- The first aider will also decide whether the injured person should be moved or placed in a recovery position
- If the first aider judges that a pupil is too unwell to remain in school, parents/guardians will be contacted and asked to collect their child. Upon their arrival, the first aider will recommend next steps
- If emergency services are called, parents/guardians/next of kin will be contacted immediately
- The attending first aider will complete an accident report form on the same day or as soon as is reasonably practical after an incident resulting in an injury
